SHELFORD GIANT

Sunnyhrook Farm Iris Garden

SUNNYBROOK SEEDLINGS.

AUTOCRAT, (Isolda)—S. bright clear blue, pointed dome shaped F. veined with darker blue, shading to lighter at edges, very	
tall, with large flowers of great substance and noble appearance.	\$2.50
CARMENCITA—S. soft rosy lilac, shaded to old gold at edges, F.	474.170
velvety crimson, edged lighter. Very warm, rich coloring, large flower, tall and vigorous grower.	1.50
CAVALIER—S, fine clear blue, dome shaped, F, deep velvety blue purple, white at throat with blue veins. Of the coloring of Perfection, but a much larger flower of Pallida type, very strong and upstanding.	1.00
MANDARIN (Grandee)—S. deep orange, shot with red, F. rich red.	••••
Very large flowers with strong stems, vigorous grower. Not for sale until 1923.	1,50
MAY ROSE—S. and F. soft bright rose pink, flower of good size and substance.	5,00
TAFFETA—S, when first opened are a very unusual tone of brown	
shaded with blue and gold, later they are soft fawn color.	
F. fawn shot with blue giving the whole flower an appear-	
ance of changeable blue and gold which is very charming	
and unusual. Flowers are large, borne on tall stems and the	
plant is vigorous and carries many flowering stalks.	2.00
TOREADOR —S. brilliant orange, shot with bronze. F. rich, glowing red. The strong Spanish coloring of this iris and its very large sturdy flowers, combined with the vigorous growth of	
the plant make it a most valuable border iris.	1.50
SIBIRICA, BUTTERFLY, (Mme. Butterfly)—This is the true	
Siberian type, very tall and graceful, the flowers lightly carried on long branching stalks, about two and a half inches across and of a lovely clear porcelain blue, without a trace of purple, nearly five feet tall.	2.50
SIBIRICA, SUNNYBROOK-This is a cross between the two	
Sibirica Orientalis irises, Blue King and Snow Queen, with the taller growth, larger flowers and spreading falls of the latter, but the flowers are of the exquisite shade of greyish blue known as Alice blue, a most rare color in the garden. The plant is very vigorous and increases rapidly and carries many flower stalks.	2.50
BEARDED IRIS.	
ALBERT VICTOR-S. and F. soft blue, overlaid with lavender,	

very tall with large flowers, fragrant and free blooming.

Price per dozen, 10 times price of one.

.25

ALCAZAR, (Vilmorin, 1910)—S. Light violet. F. deep purple with	
bronze veinings at throat, a magnificant variety of giant size	1.25
and great substance. ANNA FARR, (Farr, 1913)—S. white, lightly bordered pale blue.	
F. pure white with blue markings at base. Immense flower	
with delicious scent.	2.00
ARCHEYEQUE, (Vilmorin, 1911)—S. deep purple violet, F. velvety red purple, very rich color and large flower.	1.00
AUREA, (Jacques, 1830)—S. and F. pure rich chrome yellow,	
large flowers. The pink tone in the yellow of this flower	
makes it far more attractive in color than Mrs. Sherwin	.25
Wright, though not so striking.	,
BERCHTA, (Goos & Koeneman)—S. bronzy yellow, F. violet, bordered bronze.	.50
BLUE JAY, (Farr, 1913) S. light clear blue, F. intense dark blue.	.50
BROOKLYN-S, pearl grey with faintest flush of yellow, F. soft	
layender, large flowers and free blooming.	.25
CANDELABRE, (Vilmorin, 1911) -S. and F. deep blue, much	
lighter at throat with purple dots giving the flower a most	1.00
unique and unusual appearance. CAPRICE, (Vilmorin, 1904)—deep wine red in both S. and F. a	
very unusual color.	.59
CARTHUSIAN, (Marshall, 1906)—Enormous bluish lavender	
flowers born on 4 foot massive stems, throat white.	1.50
CATERINA, (Foster, 1909)—Very like the above, but not quite	
so sturdy in growth and with a soft overlay of mauve on the	1.59
lavender falls. CHESTER HUNT, (Farr, 1913)—S. Celestial blue, F. dark blue,	
bordered pale blue.	.75
CORDELIA, (Parker, 1873)—S. rosy lilac, F. dark crimson, edged	.50
rose. Very beautiful.	.00
CRUSADER, (Foster, 1913)—Very large, stout textured flowers of a pure, clear blue. One of the finest of Sir Michael Foster's	
of a pure, clear blue. One of the linest of Sil Michael Poster seedlings.	5.00
DALMARIUS, (Goos & Koeneman, 1907)—Cross between Pallida	
Dalmatica and Darius. S. soft grey, F. darker, shaded violet	
brown. Very distinct.	.85
DARIUS, (Parker, 1873)—S. rich canary yellow, F. lilac, shaded into white at edge.	.25
DOROTHEA, (Caparne, 1901)—Intermediate. S. pearl grey, F.	
light blue, flecked darker, a very large iris for its type.	.50
EDOUARD MICHEL, (Verdier, 1904)—S. and F. rich wine red,	2.00
large flower, beautifully waved petals. Stock scarce.	
Price per dozen, 10 times price of one.	

ELDORADO, (Vilmorin, 1910)—Very distinct and rich, large	
flowers on well branched stems. S. yellowish bronze, shaded	
heliotrope, F. violet purple, touched down the sides with	
yellow, yellow at throat, giving the flower a most unusual	1.00
golden effect.	1,00
ERICH, (Farr, 1913)—S. light violet, flushed with rose, F. bright	
purple, wide flaring, fragrant.	.75
FLAVESCENS—S, and F, delicate shade of soft yellow, tall and	
sweet scented, fine for massing, early.	.25
FLORENTINA, (Introduced about 1500 A. D.)—Blue white	
slightly flushed lavender, very large, long flowers, fragrant	
and one of the earliest.	.15
FRO—S. brilliant yellow, F. rich red brown, large rounded flowers.	.59
	,0,0
GAGUS, (Goos & Koeneman, 1910)—S., light yellow, F. crimson	47=
with yellow reticulations and edge.	.25
GISELE, (Lemoine, 1848)—S. and F. white, heavily bordered and	
spotted dark blue.	.35
HER MAJESTY, (Perry, 1903)—S. lovely rose pink, F. deeper,	
veined bright crimson. A very lovely iris with a great deal of	
character.	.50
INNOCENZA, (Lemoine, 1854)—S. and F. ivory white slight re-	
ticulations of violet at throat, a fine white iris of good sub-	
stance, very floriferous.	.25
IRIS KING, (Goos & Koeneman, 1997)—S, old gold, F. velvety	
crimson maroon edged with a broad band of gold. Very fine	
form and rich color.	.50
ISOLINE, (Vilmorin, 1904)—S. lilac pink, F. deep old rose,	
yellow at throat. Very large flower gracefully held on branch-	
ing stalk, a grand distinct iris, demanding admiration where-	
ever shown,	1.00
JAMES BOYD, (Farr, 1915)—S. clear light blue, F. dark violet	
tipped and edged lighter.	.75
JEANNE d'ARC, (Verdier, 1907)—S. very large and ruffied, some-	
what spreading, white, delicately pencilled lilac, F. white,	
edged lilac at base. The standards being somewhat loosely	
held, flutter in the breeze in a truly delightful manner. Stock	
scarce.	.75
JUNIATA, (Farr, 1909)-S. and F. clear blue, very tall and	
floriferous.	.25
KATHLEEN—S. and F. soft rosy lilac, small but pretty.	.25
KHARPUT—S. deep lavender, F. deep rich, purple, S. very long	
and drooping, whole flower extremely large and handsome,	
very early.	.15
KOCHII—S. and F. rich dark claret, one of the darkest in color.	
Early.	.25

Price per dozen, 10 times price of one.

LA NEIGE, (Verdier, 1912)—An exquisite iris which looks as if carved out of ivory S. and F. warm white with no markings	
whatever, the flowers crisp in outline and firmly held, very floriferous.	2.50
LEDA, (Farr, 1909)—S. and F. white lightly frilled pinkish lilac. LENT A. WILLIAMSON, (Williamson, 1918)—S. soft violet, F. velvety, royal purple. The whole flower of magnificent	.75
size and shape and wonderful rich coloring.	5.00
LEONIDAS—S. clear lavender, F. rosy mauve, tall and handsome. LEWIS TROWBRIDGE, (Farr, 1913)—S. bright violet, F. blue violet, shaded rose, large.	.35 .75
LOHENGRIN, (Goos & Kocheman, 1910)—Very large bold flower, of sturdy habit. S. and F. pinkish mauve with white shading at throat.	,25
LORD GREY, (Lemoine, 1810) S. soft fawn, F. fawn overlaid with rosy tone. Not a very large flower but beautiful and unusual in color.	,25
LORELEY, (Goos & Koencman, 1909) — S. light yellow, sometimes flecked with the purple of the falls. F. purple, edged yellow.	.35
LOUTE, (Vilmorin, 1904)—S. light manve with bronze sheen, F. soft red violet, very large flower. MAORI KING, (Ware, 1890)—S. rich golden yellow, F. velvety	1,00
crimson, margined gold, not very tall but a most brilliant iris. MARY GARDEN, (Fair, 1913)—S. pale yellow, flushed pale lavender, F. cream white, minutely dotted and veined maroon,	.35
very distinct. MINNEHAHA, (Farr, 1913)—S. cream white, shaded yellow, F. cream, heavily reticulated maroon, a very fine large fris, un-	.75
usual color. MITHRAS, (Goos & Koeneman, 1910)—S. light yellow, F. bril-	1.00
liant wine red with a narrow border of deep yellow. Mmc. CHEREAU, (Lemoine, 1844)—S. and F. white with a delicate pencilling of clear blue at the edges. A tall iris and	.85
very floriferous. MONSIGNOR, (Vilmorin, 1907)—S. rich satiny violet, F. same with deep velvety splashes of purple leaving border of lighter	.15
color. Very large and floriferous, flowers of beautiful form. MRS. ALAN GRAY, (Foster, 1909)—S. and F. delicate mauve, not	1,00
so pink as Queen of May but purer in tone. A beautiful iris. MRS. HORACE DARWIN, (Foster, 1893)—S. and F. white, upper	.15
part of falls reticulated violet. MRS. NEUBRONNER, (Ware)—S. and F. deep golden yellow,	.25
the deepest of any yellow variety. MRS. BEUTHE, (Ware, 1899)—S. and F. white shaded and vein-	.85
ed blue grey, very large flower and beautiful soft coloring.	.25

OTHELLO, (Lemoine, 1848)—S. rich blue, F. dark purple, late. PALLIDA DALMATICA, (before 1660)—This is the true variety and a magnificent fris, with immense flowers of light blue, the falls overlaid with rosy lavender. The foliage is very broad and glaucous, and the plant strong growing. PARISIANA, (Vilmorin, 1911)—S. white ground dotted and shaded light purple, F. white, frilled at the edge with lilac, large flower. PERFECTION, (Barr)—S. bright, clear blue. F. dark velvety purple shaded black. Very fine. PFAUENAUGE, Goos & Koeneman, 1906)—S. olive gold, F. bluish plum with a gold border, striking. POWHATAN, (Farr, 1913)—S. light violet, F. reddish purple. Large flower. PRINCESS VICTORIA LOUISE, (Koos & Koeneman, 1910)—S. soft clear yellow. F. rich plum, bordered cream, very floriferious and a rapid grower. PROSPER LAUGER, (Verdier, 1914)—Large flower of the richest coloring. S. bronze, shaded crimson, F. rich velvety crimson. QUAKER LADY, (Farr, 1909)—S. lavender with yellow shadings, F. old gold with ageratum blue overlaying the lower part of petals. Lovely and quaint. 	.25 .50 1.00 .25 .25 .25 .25 .35 1.00 .25 .50 .75

RED CLOUD, (Farr, 1913)—S. rosy lavender bronze. F. velvety maroon crimson.

RHEIN NIXE, (Goos & Koeneman, 1910)—S. Pure white, F. violet, edged white. A very fine and striking iris of pure color, tall and free flowering. Price per dozen, 10 times price of one.

.75

.25

ROSE UNIQUE, (Farr, 1910) -S. and F. bright violet rose, strik-	
ing in color and very early. SHERWIN WRIGHT, (Kohankie, 1915)—S. and F. pure deep yellow without markings of any kind. A brilliant color but not as fine in tone as Aurea. Very valuable color in garden.	.75 ,50
SHREWSBURY, (Farr, 1916)—S. rosy bronze, F. violet purple with a conspicuous orange heard which makes this flower	
most noticeable. TAMERLAN, (Vilmorin, 1904)—S. broadly rounded and somewhat waved, lavender violet, F. deep violet. Very large	.75
flowers. THORBECK—S. bluish white, F. deep velvety purple, a very striking and rich contrast.	1.00
TRAUTLIEB, (Goos & Koeneman, 1899)—S. and F. lovely uniform soft rose, very fine.	.59
WYOMISSING, (Farr, 1909)—Soft creamy rose, F. somewhat darker, shaded lighter towards edge.	.75
ZUA, (Crawford, 1914)—S. and F. soft pale lavender. The texture of the whole flower is distinct from any other bearded iris, being like heavy frosted crepe. Low growing and early.	
Fragrant. Mixture of fine kinds, 12 cents. \$8.00 per 100.	3,00
BEARDLESS IRISES OF VARIOUS SPECIES	5.
EVANSIA GROUP (CRESTED IRIS) CRISTATA—Also of the Evensia or crested family, is a native of	
our country and is a small creeping species growing only about 3 inches in height, increases rapidly in a well drained	a=
soil, and is a rich amethyst blue in color. GRACILIPES—Another iris of the crested family, a small and delicately beautiful thing. It likes a somewhat cool situation	.35
where the tiny rnizomes will not be parched with drought. When established will produce numerous pinkish lilac	
flowers on a branching stem from 9 inches to a foot in height, the grassy foliage about the same height. The flowers	
are flat in shape like a single Japanese iris and have a tiny crest of white. TECTORUM—The flower is more the shape of the Germanica	.50
types, but the S. have a jagged crest white with brown marking, the flower itself is blue purple and has splashes of a	
darker shade. A very lovely iris. TECTORUM, ALBA—A most exquisite iris, like the type except	.35
that it is pure white and the crest is marked with gold. With the slight protection given by a hedge or strong growing	
plants, this iris is perfectly hardy and a rarely lovely flower. Both Tectorum and Alba seed freely and come perfectly true to type.	3.00
Price per dozen, 10 times price of one.	,,,,,,

CLOUDY SKY, (Kumono-No-Sora) - 3 immiense white, crepy	
petals with sky blue halo surrounding the yellow blotch at throat. A somewhat smaller edition of Morning Mists.	,50
FIREFLY, (Uji-No-Hotaru)—The latest to bloom, a very deep	*****
purple with golden blotch at throat, a tall and imposing flower.	.50
KAMATA—Single, deepest sky-blue, veined white,	.65
LESTER LOVETT—Very large double flower of bright, clear blue	
with white halo, a very fine variety.	.75
MADONNA-Very fine pure white, double, tall growing, with large	
flowers.	.35
MAHOGANY—Double, very dark, red purple, veined maroon.	.35
MORNING MISTS—This is the most magnificent of the single	
Japauese irises, often measuring 12 inches across. The petals	
are of a lovely thick crepy texture, very wavy and pure frosty	
white with a sky blue halo lightly dusted across the centre of the flower.	1.00
MRS, LOVETT—6 enormous petals, lavender veined with rich	1.00
purple and margined with pure white; canary yellow splash	
in centre. A magnificent flower of exquisite form and color.	1.00
NORMA—Double, exquisite, silky, lavender pink with clear blue	
halo surrounding yellow blotch at base of petals. Very large	
flower.	.75
PAINTED LADY—A very tall and handsome flower, 6 large petals	
of white, sometimes veined with plum, inner petals edged	
with plum.	.35
PINK PROGRESS—Single ,beautiful mauve pink with sky-blue	
halo.	.65
PROF. GEORGESON—3 enormous petals of pure rich red violet.	.35
RUFFLED MONSTER—Double, deep pinkish plum, heavily veined with white, beautifully ruffied, enormous flowers.	.75
SANO-WATASHI—One of the best pure white, early, 6 great	.10
drooping petals of pure white, firmly held, with golden blotch	
at throat.	.35
SPOTTED BEAUTY—6 petals of soft flesh pink, minutely dotted	
with rose. A flower of beautiful orchid coloring, of splendid	
substance, lasting a long time in water.	.50
STEEL BLUE—Exquisite soft lavender blue, self colored with mauve halo, a delightfully cool and delicate color. 3 petals,	.65
TEMPLETON—Very double, light violet, mottled reddish pink and	.00
white.	.35
TURBAN—Double, grey ground, heavily overlaid and veined with	
blue.	.35
